

Fundargerð skólaráðs 3. júní 2025

Fundarboð:

Sæl öll.

Við biðjum ykkur um að mæta á þennan síðasta fund skólaráðs á þessu skólaári, 3. júní kl. 14:10.

Fundurinn þarf ekki að vera langur.

1. fundargerð síðasta fundar
2. fjölgun nemenda í kindergarten
3. önnur mál

Hello everyone.

We ask that you attend this last school council meeting of this school year, June 3rd at 2:10 PM. The meeting does not have to be long.

1. minutes of the last meeting
2. increase in kindergarten students
3. other business

Á fundinum voru:

Anna Guðrún, Carly, Elín, Harry, Bryndís og Elísabet.

Harry ritaði fundargerðina:

Please see below notes and topics from the meeting:

- International class for kindergarten increasing to match Icelandic side. This would see the international incoming class be 18 compared to 14, Icelandic side stays the same. Staff to student ratios agreed with city of Reykjavik. General consensus was that this positive, with notes regarding monitoring any dilution in learning outcomes.
- Health and safety review recommended making some changes to desks and seats for teachers. Will be implemented over next months and before deadline. No specific budget for this, however will be managed.
- Teenagers asked for their eating area to serve as their common room – this was approved for that use.
- Teenagers asking for board games and sofa for common room. This could be something asked for to the parents or something that they can fundraise themselves.

- School food had been changed for two weeks, with little feedback positive or negative (change was not published broadly).
- Focus on more social activities and extracurriculars for coming years (see below suggestions from parents).
- Parent feedback was that calendar, home teachers and classrooms were all later in the school year compared to other years.
- Possibility of social enterprise for older kids and help them learn about business whilst giving back to the community. (<https://www.young-enterprise.org.uk/>)

From Parents Association here is a list of activities that the school could look at for trips and activities:

takkSuðurland:

Kajak á Stokkseyri fyrir skólahópa (o.fl.) <https://www.kajak.is/tour/skolahopar/>
